

TYPE QPH4A PORTABLE UNIT HEATER

Take the chill out of workshops, storage buildings and garages quickly and dependably.

- Perfect for construction job sites, garages, workshops, any unheated area.
- Compact. Lightweight. Just 25 pounds.
- Easy to carry with built-in handles.
- Two heat settings: 9102 BTUs (2667 Watts) 13,652 BTUs (4000 Watts).
- Permanently lubricated, unit-bearing fan motor.
- Three-way bracket lets you stand unit on floor or other flat surface, or mount to ceiling or to wall.
- Adjustable thermostat to maintain heating comfort levels.
- Operates on 240 Volts. Comes equipped with 6-foot cord.
- 5-year limited warranty on heating elements.
- U.L. Listed, File #E152700.

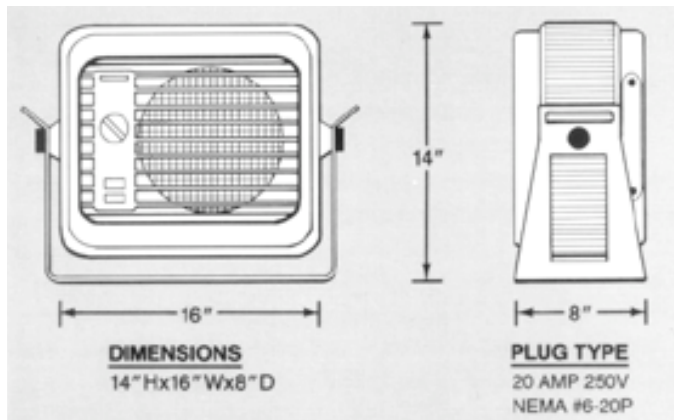

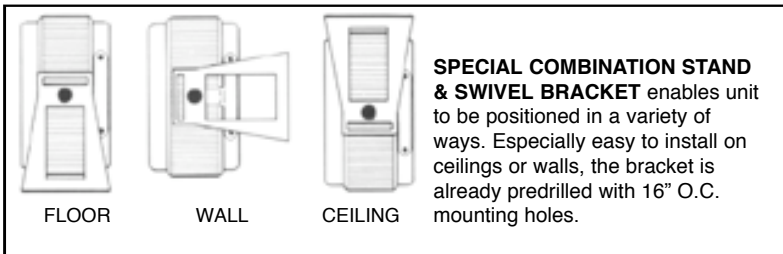

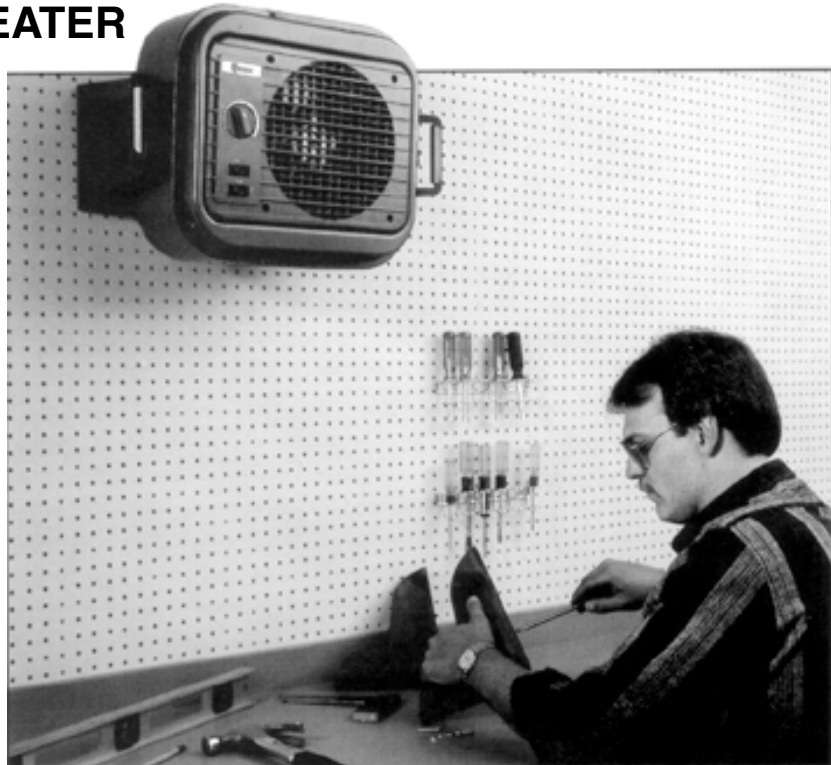

When it's cold outside, the QPH4A delivers dependable, portable heat inside.

For fast warm-ups in unheated areas, depend on the QPH4A for either 13,652 BTUs or 9102 BTUs of heat.

That's enough heat to take the chill out of almost any space - quick and sure.

And when the weather is warm, the QPH4A fan-only switch brings out the cooling breezes.

Hot or cold, the QPH4A does the job.
