- BUILT-IN DOUBLE POLE THERMOSTAT ON ALL UNITS
- FIELD WIRING COMPARTMENT FOR EASE OF INSTALLATION
- CEILING MOUNT UNITS AVAILABLE (1000 WATT ONLY)
- CHROME AND NORTHERN WHITE GRILLE FINISHES AVAILABLE

APPLICATIONS

Ideally suited for recessed Shallow Wall Mount applications, such as manufactured homes.

RESIDENTIAL: Suitable for use in almost any room. Use single heaters in smaller rooms such as bedrooms and bathrooms. Use multiple heaters (controlled by a single remote thermostat) in larger rooms such as living rooms and family rooms. Wattage levels should be determined by heat loss calculations.

COMMERCIAL: Suitable as the primary heat source in smaller rooms and as supplemental heat in almost any general use area.

MOUNTING LIMITATIONS

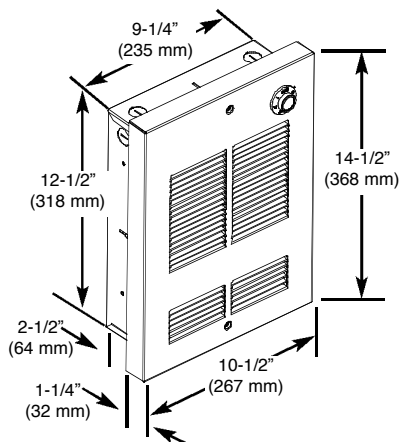

WALL MOUNT: Do not install back box closer than 4.5 inches from floor or adjacent walls, and 12 inches from ceiling. Do not install heater behind towel rack, behind door, in floor, in closet, or where airflow may be obstructed. To insure proper operation, maintain 3-foot clearance to furniture or other objects placed directly in front of the heater.

CEILING MOUNT: Only 1000-Watt units are suitable for ceiling mount applications. Do not install the back box closer than 12 inches to any adjacent wall. Do not install heater where airflow may be obstructed.
