

# Components

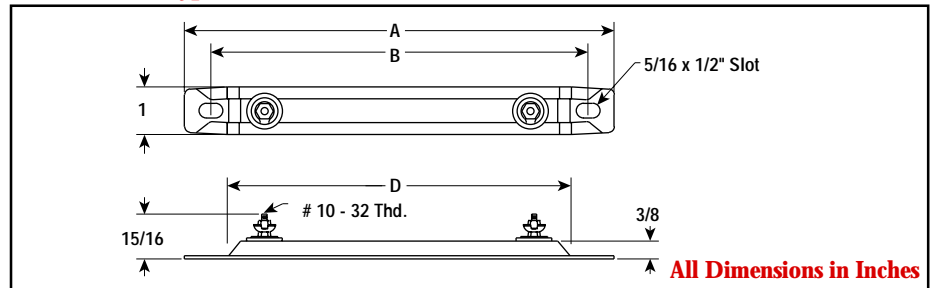

## SNH & NH

1" Wide

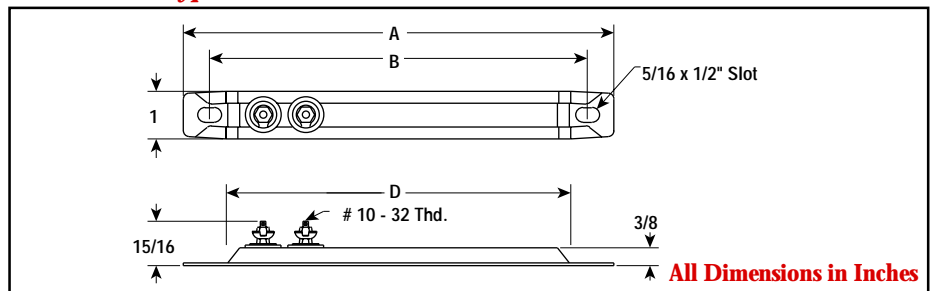

- Two Terminals, One End (type SNH)
- One Terminal, Each End (type NH)
- 8 - 53-7/8" Lengths
- 250 - 1,500 Watts
- 120 and 240 Volt
- 7 - 24 W/In<sup>2</sup>

### Dimensions (type NH)

### Dimensions (type SNH)

### Applications

Strip heaters are used for heat transfer by conduction or convection to heat liquids, air, gases and surfaces. See guidelines in the Strip Heater Overview section.

### Specifications and Ordering Information

Dimensions (In.)			Watts	W/In <sup>2</sup>	Chrome Steel Sheath				Chrome Steel Sheath				Wt. (Lbs.)
A	B	D			120V		240V		120V		240V
