

AR-LT & AR-EP

Non-Indicating Temperature Controllers

- AR-LT Weather Resistant Enclosure
- AR-EP Explosion-Proof Enclosure
- Bulb & Capillary
- Sensitive, Long-Lasting, Snap Action Mechanism

AR-LT

AR-EP

Features

- Double pole, single throw contacts that open on temperature rise. At positive off position, contacts cannot close.
- Differential $\pm 4\%$ of scale.
- Bulb and capillary: copper for units rated at 250°F and lower; nickel-plated copper for units between 200 and 500°F; tin-plated steel for units between 300 and 700°F.

WARNING: Hazard of Fire. These controls function as temperature controls only. Because they do not fail safe, an approved temperature and/or pressure safety control must be used for safe operation.

Bulb Style 4 and 5

- For confined locations
- For insertion into drilled holes in platens or dies
- For direct immersion

Bulb Style 9

- For control air and pipeline heating
- May be coiled to inside radii of 1/2", minimum
- Compression fittings and protective wells available

AR-LT & AR-EP

Non-Indicating Temperature Controllers (cont'd.)

Notes —

- AR-EPs are UL listed for use in Class 1, Div. 1 & 2, Groups C & D and Class II, Groups E, F and G Hazardous Locations and for 120 to 277 Vac Applications only. Not rated for 480 Vac.
- See ordering information table above for Bulb and Capillary dimensions.
- Thermowells (CPW_) and Universal Compression fitting (CCF) for all AR thermostats must be ordered separately.
- Pilot Duty rating, 125 VA for 125 Vac, 250 VA for 250 - 277 Vac.
